

# GlobalMeet

## Global anytime, anywhere conferencing on our high speed network

**Your most important international calls demand the highest-quality connections. GlobalMeet has local access points around the globe to enable easier and more cost-effective connection than you've ever enjoyed.**

### Superior Call Quality

GlobalMeet calls are connected directly to our high-speed network, giving your global calls superior audio clarity. Consistent touch-tone features make international conferencing easier and more reliable than expensive, limited international toll-free options.

Calls to a local number are automatically forwarded to one central platform, ensuring fast connections, superior audio quality and maximum reliability.

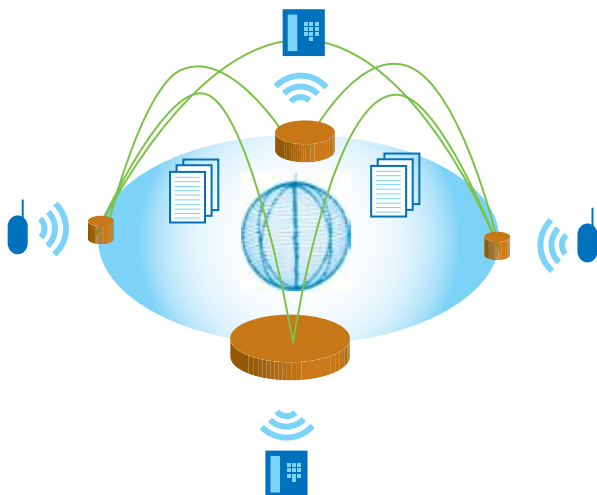

### Bridge the Gap

GlobalMeet provides automated service with local access points around the globe.

## Superior audio quality and maximum reliability

### Key Features

- Automated service with international toll-free and local access points around the globe
- Europe, the Middle East and Africa (EMEA)
- Asia Pacific (including extensive India reach)
- North, South, Central, and Latin America
- Calls to an International Toll-Free (ITF) and local number automatically forwarded to one central bridging location
- Flexible port capacity to suit individual needs

**ENTERPRISE**  
Collaboration

## Seamless Collaboration

GlobalMeet enables collaboration between geographically dispersed participants such as global business partners and stakeholders, remote workers and traveling employees.

## Discover the Advantages of GlobalMeet

**India Access.** GlobalMeet offers India users local access across 14 metropolitan area networks to deliver full-featured, international audio conferencing. GlobalMeet resolves restrictions on toll-free dialing while providing you with cost savings.

**Flexibility and affordability.** International toll-free numbers are restricted to a specific country to avoid surprise cost overruns. GlobalMeet covers major business hubs, providing inexpensive long-distance access no matter where you're trying to connect.

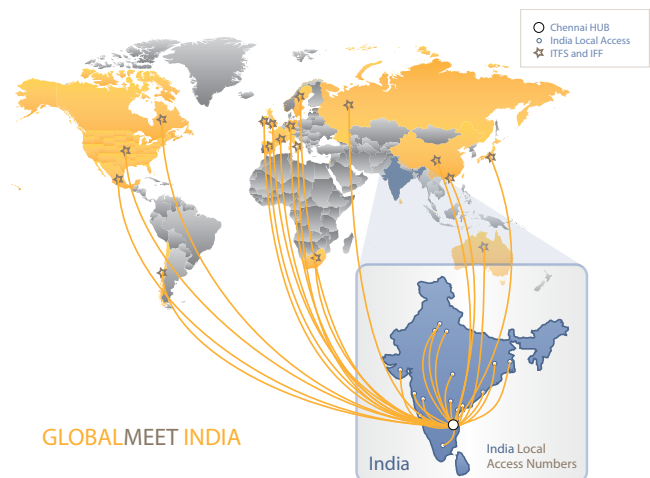

**Speed.** Our fast network connects you to clients and colleagues anywhere in the world. Dial direct from your cell phone, home phone or office—without operators or reservations.

**Consistency.** All GlobalMeet international calls travel over the same high-speed network, ensuring the quality of your audio is always consistent and clear without any lags or overlap. All touch-tone commands are translated to universal dual tone multifrequency (DTMF) tones so functionality is uniform across countries.

**Reliability.** GlobalMeet utilizes a highly reliable platform to provide high-performance calls.

**Convenience.** Easy-to-use automated features require no reservations or operator assistance. Meet anytime, from anywhere.

**Service.** As always, Tata Communications' customer care team is available 24x7 should you need assistance at any time.
