

Colocation Platinum

How can you take
colocation to the
next level?

Optimise your colocation investment with a value-added colocation service that provides more flexibility and choice, at lower Total Cost of Ownership.

Colocation Platinum from Tata Communications enables you to maintain control of your operating system, security and networking policies and applications, while we handle hardware procurement and management.

Delivered on dedicated, robust hosting infrastructure within our data centres across 4 regions, Colocation Platinum provides user-defined, dedicated computing resources, backed by the 24x7x365 expertise and reliability your business demands.

Optimise your business, effortlessly:

Tata Communications' colocation facilities are built to global standards to provide you with the highest level of security, control and flexibility. Our hardware is sourced, scaled and managed by Tata Communications, allowing you to better focus on achieving your core business goals, in addition to lowering CAPEX by leveraging our monthly or up-front payment options.

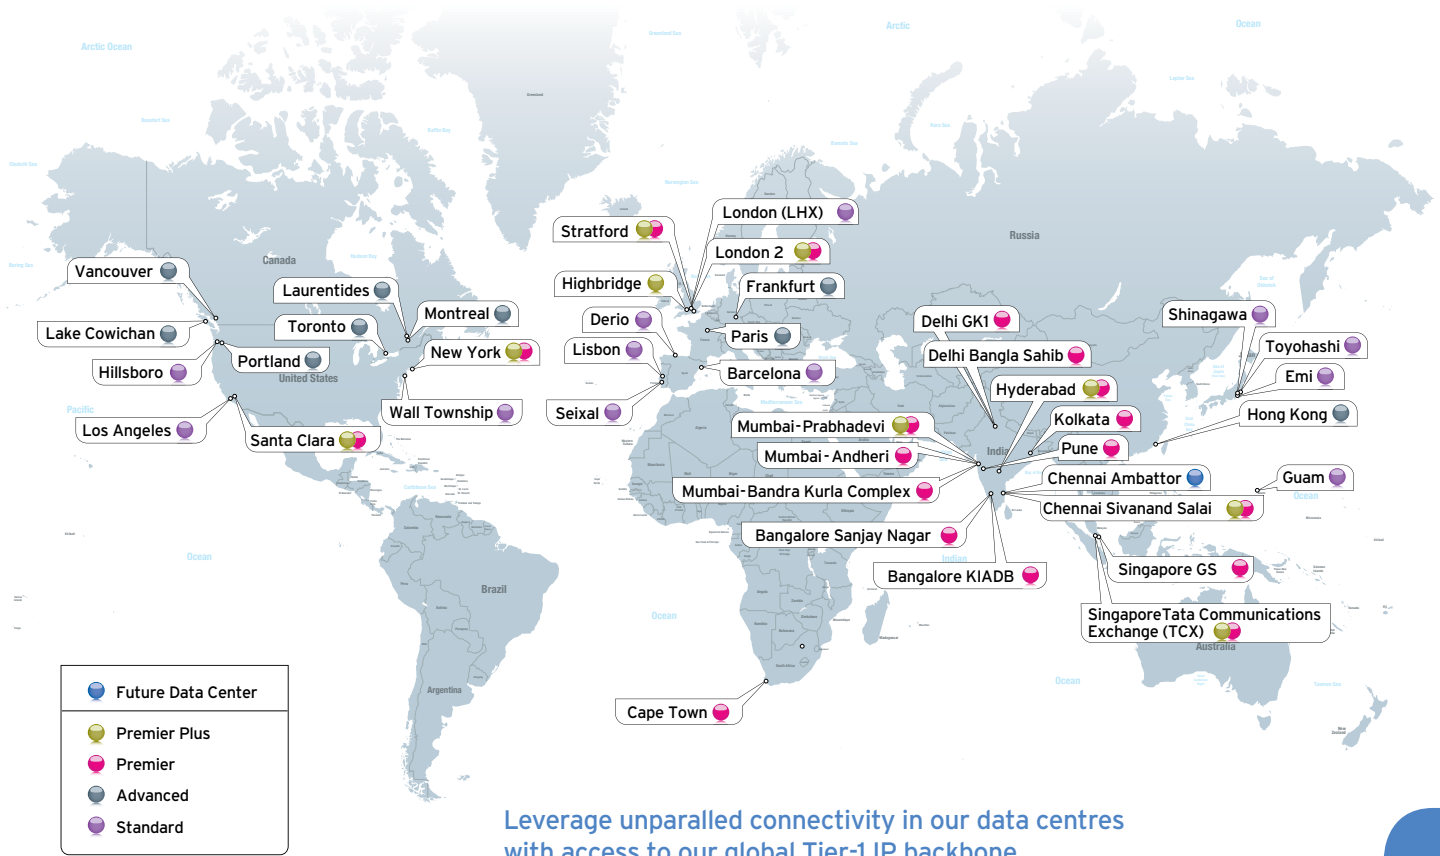

A wide range of features:

- Dedicated hardware provisioning and installation
 - Servers
 - Switches
 - Firewalls
 - Load balancers
 - Dedicated storage
- Reactive (remote hands) 4-hour response to hardware issues
- Greater control of the OS and Application stack
 - OS is limited only by the hardware
- Complies with ISO 27001 standards, adheres to the Data Protection and Document Control Process and is SAS 70 Type II accredited to meet industry audit standards for the secure maintenance of systems and sensitive data

Tap into these benefits:

- Implement a cost-effective strategy that enables you to quickly ramp up expanding IT infrastructure and meet increased demands
- Scalable, vendor-agnostic solution that can be customised to meet your unique functionality, performance and budget requirements
- Choose from a variety of hardware options from leading OEMs or the ability to use your existing hardware
- Reduce the time and cost spent on non-revenue generating activities such as managing and maintaining hardware
- Leverage the breadth of expertise provided by Tata Communications' IT professionals across multiple areas including equipment management, backup, and storage management

Our Global Data Centre Footprint

Leverage unparalleled connectivity in our data centres with access to our global Tier-1 IP backbone

Key components of Colocation Platinum:

- Physical hardware - provisioned and installed
- Remote Hands Service for fixing broken equipment
- Maintenance contract
- Service contract managed by Tata Communications

Optional services that can be added to Colocation Platinum:

- Additional local disk and memory for servers
- Multiple data connectivity options and plans
- Managed Storage Services
- Managed Backup and Restoration
- Additional Remote Hands Services

About Tata Communications

Tata Communications is a leading global provider of a new world of communications. With a leadership position in emerging markets, Tata Communications leverages its advanced solutions capabilities and domain expertise across its global and pan-India network to deliver managed solutions to multi-national enterprises, service providers and Indian consumers.

The Tata Global Network includes one of the most advanced and largest submarine cable networks, a Tier-1 IP network, with connectivity to more than 200 countries across 400 PoPs, and nearly 1 million square feet of data center and colocation space worldwide.

Tata Communications' depth and breadth of reach in emerging markets includes leadership in Indian enterprise data services, leadership in global international voice, and strategic investments in operators in South Africa (Neotel), Sri Lanka (Tata Communications Lanka Limited) and Nepal (United Telecom Limited).

Tata Communications Limited is listed on the Bombay Stock Exchange and the National Stock Exchange of India and its ADRs are listed on the New York Stock Exchange. (NYSE: TCL)
