

Data Center London 2, England

London Data Center

London 2, England

Our data center is a fully secure facility that provides colocation and managed hosting services. We are located only 20 minutes by train from Central London, and are easily accessible to the M25 and M40 motorways.

Site Specification

Total Floor Area

Up to 21,400 square feet (1,988 square meters) of highly resilient, individually segregated, concurrently maintainable data halls

Floor Loading

500 kg per square tile

Clear Heights

3.5 meters

Loading Dock

Available

Elevators

Not applicable as data halls are available on the ground level

Roof Rights

Tata Communications has exclusive rights to roof space

Power System

Power

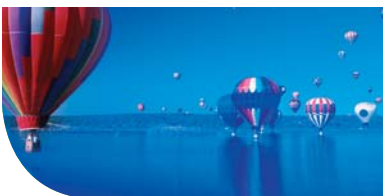

Firm redundant supply with 6 MVA service at 11 kV

Generator

Six 1,600 kVA standby generators configured for N+1

Fuel Tanks

Standby fuel is available on-site, if needed

Data Center - London 2

Power System Continued

UPS

2,880 kW of UPS capacity configured as 2N with four (4) 800 kVA UPS systems

Environmental

HVAC/CRAC

90 kW CRAC units configured as N+2, supported by six 830 kW air cooled chillers configured as N+1

Fire Suppression

Double interlock pre-action water mist system smoke

Security

24 x 7 x 365 on-site security. Security Management System (SMS) integrated with the site. Additional security elements include: Building Management System (BMS), dual authentication access control (using ID card and biometrics), CCTV system, internal alarm system, 2.4 meter Palisade fence with Vanguard anti-climb top, pedestrian access turnstile and automatic vehicular gate with intercom.

Monitoring

Continuous monitoring of HVAC, power and building systems.

Connectivity

Backbone

Tata Communications' global network connectivity is available for public and private access needs. Additional third party carriers provide diverse routes into the building and have a presence in the surrounding area.

Additional Services

Remote Hands

The facility is supported by an experienced team of technical, communications and facilities staff. We offer technical services in support of your planning, configuration and implementation requirements and will provide ongoing hands and eyes operations through our 24 x 7 x 365 support operations center.
