

***Report on quality indicators of internet
access services from fixed location
provided by Tata Communications (Italy)
Srl***

YEAR 2022

This document reports the quality indicators of internet access services from fixed location provided by Tata Communications (Italy) Srl, according to the provisions of art. 10 of AGCOM's Resolution 179/03/CSP and AGCOM's Resolution 131/06/CSP as amended.

For each indicator are reported:

- the definition of the indicator;
- the measurements made;
- the notes explaining how the measurements have been made;
- the targets for the year 2022 set in relation to each measure;
- the results relevant to the year 2022, as applicable;
- the periods object of the reports.

Time to activate broadband internet access service

Indicator	Measures	Targets 2022	Results 1 st semester 2022	Results 2 nd semester 2022	Results year 2022
Activation time for broadband internet access services	First activation orders addressed to a broadband internet access service provider other than the operator providing the direct access service for a line already active				
	- Percentile 95% of the time of supply	295 days	340 days*	180 days	260 days
	- Percentile 99% of the time of supply	310 days	340 days*	180 days	260 days
	- Percentage of valid orders completed within the maximum term provided by the contract	80%	80%	33%*	56,5%*
	- Average	136 days	195 days*	109 days	152 days*

Other information:	1st semester 2022	2nd semester 2022	Year 2022
Number of contracts for this type of order: first activation orders addressed to a broadband internet access service provider other than the operator providing the direct access service for a line already active	15	6	21

Definition

The time, measured in calendar days, elapsed between the day when the valid order is received by the operator and the day when the service is actually available for use by the applicant for the service.

Notes

Internet broadband access services are considered regardless of the technology used.
The report is census-based: all valid orders received during the relevant period are considered.

Reporting periods

1st semester = from 1 January to 30 June;
2nd semester = from 1 July to 31 December;
Annual= from 1 January to 31 December.

* The results have been influenced by causes not depending on Tata Communications (Italy) Srl.

Malfunction rate of broadband internet access services

Indicator	Measure	Target 2022	Results 1 st semester 2022	Results 2 nd semester 2022	Results year 2022
Malfunction rate of broadband internet access services (service provided by using wholesale services)	Ratio between the number of actual malfunctions reports and the average number of broadband access lines	18%	6,41%	4,44%	5,42%

Definition

Ratio between the number of reports made by users relating to actual malfunctions during the period and the average number of broadband access lines detected on a monthly basis during the same period.

Notes

Broadband access services are object of the report regardless of the technology used.

The report is census-based: all reports, relating to actual malfunctions, received during the survey period are considered.

Report periods

1st semester = from 1 January to 30 June.

2nd semester = from 1 July to 31 December.

Annual = from 1 January to 31 December.

Time to fix malfunctions related to broadband internet access services

Indicator	Measures	Targets 2022	Results 1° semester 2022	Results 2° semester 2022	Results year 2022
Time to fix malfunctions related to broadband internet access services (services provided by using wholesale services)	– Percentile 80% of the time to fix malfunctions	12 hours	2,18 hours	1,16	1,67 hours
	– Percentile 95% of the time to fix malfunctions	27 hours	14,03 hours	1,16	7,59 hours
	– Percentage of repairs of malfunctions completed within the maximum term provided by the contract	85%	100%	100%	100%
	– Average time to repair malfunctions	28 hours	3,67 hours	0,42 hours	2,04 hours

Definition

The time, measured in hours (including non working hours), elapsing between the customer's notification of an actual malfunction and the repair of the malfunction.

Notes

Broadband access services are object of report regardless of the technology used.

Report is census-based: all repairs completed during the relevant period are considered, regardless of when the malfunctions have been reported.

Report periods

1st semester = from 1 January to 30 June.

2nd semester = from 1 July to 31 December.

Annual = from 1 January to 31 December.

Disputed charges

Indicator	Measure	Target 2022	Result 1° semester 2022	Result 2° semester 2022	Result year 2022
Disputed charges	Ratio between the number of complaints received during the period considered and the number of invoices issued in the same period	1%	0%	0%	0%

Definition

The percentage of invoices contested (during the period considered) for charges for broadband internet access services compared to the number of invoices issued in the same period.

Notes

The reports are census-based: all complaints (in written or other form accepted by the operator and that can be tracked) received during the relevant period, regardless of their validity, and relating to charges for broadband internet access services are considered.

All invoices issued during the relevant period are considered.

Report periods

1st semester = from 1 January to 30 June.

2nd semester = from 1 July to 31 December.

Annual = from 1 January to 31 December.
