

# STORAGE

Get a cutting-edge data storage solution for the ever-increasing and unpredictable data storage needs of your business. Our budget friendly cloud storage offers reliable and scalable storage solutions that are offered at competitive pricing.

## Cutting edge Cloud Storage solutions

Businesses today generate enormous amounts of data which can provide them with in-depth insights and advantage over the competition. However, it is essential for you to store this data in a secure and reliable manner. Tata Communications Vayu Cloud Storage is an integrated and unified cloud storage suite which provides complete control over your data while sufficing the unpredictable storage needs of your growing organisation. Tata Communications emerges as a front runner in providing cloud storages options like Object Storage, Block Storage, File Storage and Archival.

### Block Storage

High performance NVMe based storage with high IOPS rate

### File Storage

High performance SSD with NL-SAS drive variants available

### Object Storage

High performance object storage for cloud native networks. Object storage is used for backup, retention and archival

## Why choose Tata Communications Vayu Cloud Storage solutions?

**Scalability:** Scale your storage to support millions of critical customer transactions with a variety of high-speed storage options for your relational database.

**Security:** Be rest assured that all your data is safeguarded and secured using the most innovative security protocols as well as the latest infrastructure.

**Reliable:** A secure and reliable cloud storage that supports diverse, mission-critical enterprise applications of your organisation including SAP and Oracle available across multiple geographic locations.

**Support:** Even the best IT teams need support from the service provider, and with 300+ professionals ready to help you, your professional support is ready 24/7.

**Committed uptime:** Experience uninterrupted service with our cloud storage with 99.9 % uptime. We prioritise a seamless user experience, ensuring your customers receive exceptional service. Choose us as your reliable and budget-friendly storage provider with competitive pricing across object storage and block storage options.

**Encryption for data:** To protect data, Tata Communications storage methodologies enable encryption to protect data at rest. Tata Communications drives encryption of data internally until the authorised administrator unlocks the drive's encryption key.
