IZO™ PRIVATE CONNECT

TURN YOUR IP VPN INTO A VIP VPN

IZO™ PRIVATE CONNECT LINKS BUSINESSES TO CLOUD SERVICES OVER MPLS OR ETHERNET THROUGH ONE SINGLE PROVIDER GLOBALLY, TO ENSURE NETWORK PERFORMANCE.

Through global agreements with Amazon Web Services, Microsoft Azure, Office 365 , Google Cloud Platform, IBM SoftLayer and Salesforce , Tata Communications' IZO™ Private Connect simplifies and provides faster on-boarding to the world's leading private cloud providers.

PREDICTABLE: Get guaranteed throughput and availability, with Service Level Agreements (SLAs), consistent network performance.

SIMPLIFIED: Reduce the complexity of network management with a single global relationship that is fully managed, a single bill, and 24x7x365 customer service.

SEAMLESS: Connect to the top public clouds and data centres over our global Tier-1 network – one site to multiple hubs.

SECURE: Protect enterprise data while enjoying dedicated network capacity and high speeds.

A leader in global network solutions, Tata Communications is uniquely positioned as the only telecommunications company with presence across six continents, the largest, wholly-owned subsea cable network, and more than 1 million sq. ft. of data centre space in 44 locations worldwide.

MARKET TRENDS

97% of respondents say their organisation has adopted cloud computing to some extent.

THE REALITY OF CLOUD COMPUTING - HAS IT LIVED UP TO THE HYPE?
-TATA COMMUNICATIONS 2015

More than 50% of enterprises rate enterprise-grade network services from their cloud providers as very important.

"ENTERPRISE NETWORKING FOR THE CLOUD AGE" - OVUM 2015

Everybody's Network Cloud

As part of a cloud enablement platform, companies tap into an entire global ecosystem that provides secure, high performance connections between enterprises, cloud providers and third party data centre partners – ultimately delivering a high quality end user experience.

Ethernet connectivity to Tata Communications' data centres and across 110+ third party data centres globally.
