

 DATA CENTRE AND CLOUD SERVICES: IZO™ MANAGED CLOUD FOR AZURE

# DRIVE GROWTH FOR YOUR ENTERPRISE WITH IZO™ MANAGED CLOUD FOR AZURE

**MAXIMISE THE BENEFITS OF BOTH PUBLIC AND PRIVATE CLOUD WITH TATA COMMUNICATIONS' EXPERTLY MANAGED, END-TO-END SOLUTION AND GLOBAL NETWORK REACH.**

## **GET BACK TO BUSINESS**

Designing, integrating and managing public and private cloud services - while maximising its benefits - requires expertise that can place a drain in-house IT resources. With Tata Communications IZO™ Managed cloud for Azure, leave the IT to us and get back to focusing on your core business.

## THE CLOUD CHALLENGE

Today's global enterprise expansion is driven by technology and the cloud. However, internally managing operations, maximising resources and executing projects on the cloud has been a challenge due to lack of expertise, IT silos, and the loss of visibility and control as there is no single touch point for deployments. These factors lead to a longer time to market and reduced ROI.

In addition, concerns over data security, integrity and availability of public cloud, plus a lack of end-to-end support SLA for cloud services, limit the full realisation of the cloud's benefits.

## IZO™ MANAGED CLOUD FOR AZURE

Get visibility and control over costs and productivity while improving resource efficiency with a hybrid cloud solution using Tata Communications IZO™ Managed Cloud for Azure for business application hosting.

This complete end-to-end, SLA-based service redefines your cloud strategy. And it does so by giving you access to the right expertise, infrastructure and control to fuel growth with a lower total cost of ownership and improved performance.

### Consult and design

Through consultation, our certified engineers work with you to design a comprehensive IT architecture. They will use the best combination of solutions tailored to your enterprise needs that can be deployed across public and private clouds.

### Build and migrate

Tata Communications builds the solution, installing and configuring OS, middleware, databases, storage, backup and network functions as per industry best practices. We also assist in migrating your workloads to Azure.

### Monitor

Our SLAs offer expert support 24/7/365 from 300+ industry certified professionals.

### Manage

Get full performance visibility through a portal giving you comprehensive views of resource utilisation, availability, integrated incident management and more. Control costs and improve productivity through efficient resource management and cloud control.

## GAIN A COMPETITIVE EDGE

### Improved efficiency

Use the cloud more efficiently and optimise your resources to lower costs. Reduce your time to market with application templates for faster performance.

### Expertise

Access to certified experts in cloud design, deployment and management equipped with best practices for continuous improvement

### Be future-proof

Technology is constantly changing and so are your needs. With Managed Services, we'll periodically evaluate your public cloud portfolio and your IT footprint to adapt to newer technology, ensuring that you are always one step ahead of the curve.

S No.	Services	Silver	Gold
