

Learn how much more you can do with Microsoft Teams!

We're building Skype for Business capabilities into Microsoft Teams, bringing you smarter calling, chat, and meeting experiences. Begin exploring Teams today to understand the value it can offer to your organization.

Skype for Business

IM and Chat

SFB Instant messaging (IM) is an efficient way to connect with your contacts in real time including sharing:

- Emojis
- Files

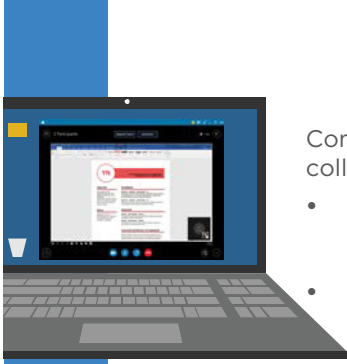

Meetings

Professional online meetings built for business with features including:

- Desktop sharing
- Audio, Web, and Video Conferencing
- Meeting recording.

Collaboration

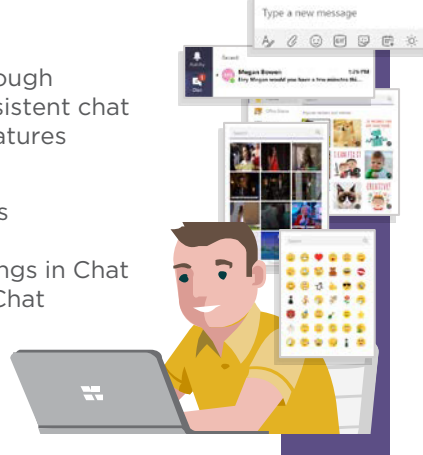

Communicate and collaborate with:

- Connected meeting experiences from any device
- Office integration

Microsoft Teams

IM and Chat

Communicate through threaded and persistent chat with additional features including:

- Add-ons - Apps
- Gifs
- Calendar Meetings in Chat
- File sharing in Chat

Meetings

Participate in more productive meetings with:

- Desktop and window sharing
- Audio, Web, and Video Conferencing
- File sharing within Conversations
- Co-author in real time using connected Office and other apps
- Cloud recording of meetings with transcription and translation

Collaboration

Streamline collaboration and improves teamwork:

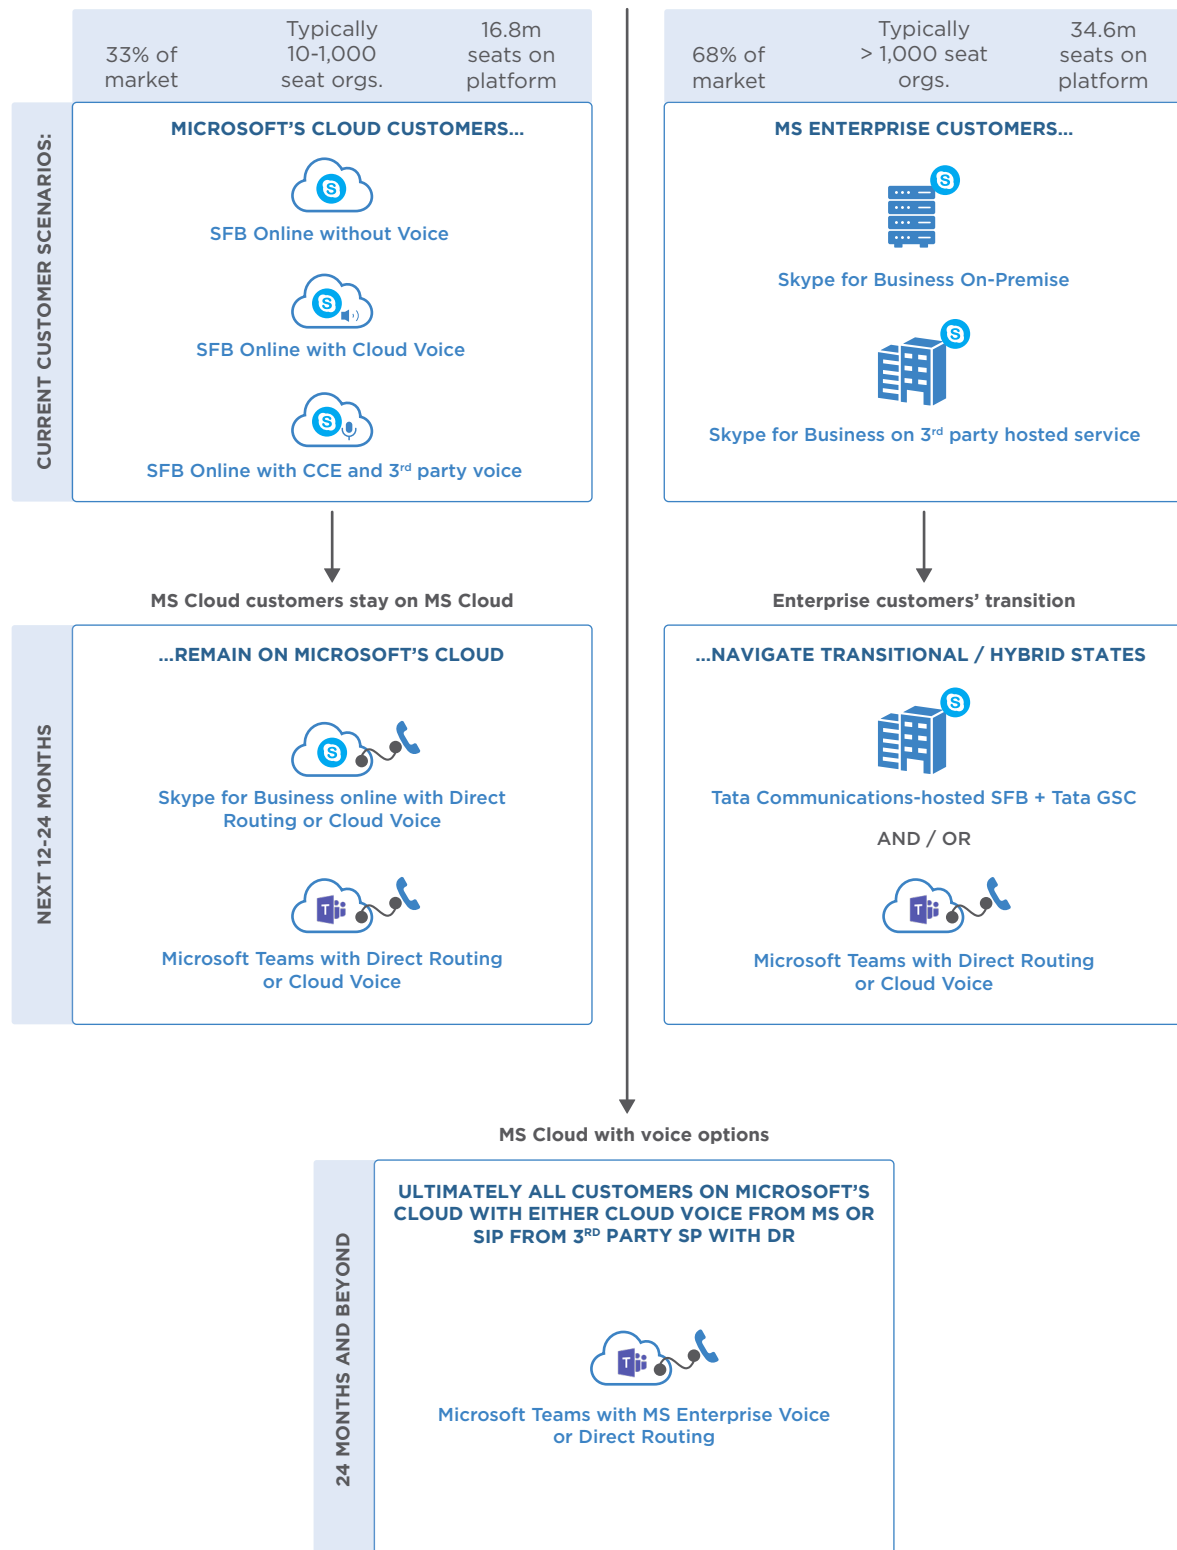

- Search for content, files and people
- Track project chats, notes, files and meetings all in one place
- Office 365 apps are built in for easy access to SharePoint, OneNote, Power BI, Planner and more.
- Communicate directly by @mentioning and tagging team members

Microsoft Teams brings together the full breadth and depth of Office 365 with Skype for Business functionalities, to provide a true chat-based hub for teamwork and give customers the opportunity to create a more open, fluid, and digital environment.
