

## IT'S YOUR CALL

### COLLABORATE WITH TATA COMMUNICATIONS CONNECTIONS FOR MICROSOFT TEAMS

Although nowadays we tend to think of connectivity as 'always on', there are times when fast internet and mobile data simply aren't available. With Tata Communications Connections for Microsoft Teams, we give you complete flexibility to collaborate on your terms.

At its simplest, Tata Communications Connections for Microsoft Teams enhances voice interop capabilities in your meeting invites. This will answer the call for those people getting into a meeting and connecting them to your meeting following authentication. The solution can also extend to being a full feature end-to-end service for your voice calling systems inclusive of Enterprise Voice.

### MEETING YOUR COLLABORATION NEEDS END-TO-END

Tata Communications Connections is an end-to-end managed service that allows you to unlock the full potential of your Office 365 subscription. This service enables broad collaboration capabilities for your messaging, meeting and collaboration needs. Leverage Tata's voice and video services with next gen UC experience that easily interoperates with Microsoft Teams.

Tata Communications Connections enables you to take a phased approach to integrate voice with Microsoft Teams. It all adds up to more integration possibilities, better end-to-end visibility, and more efficient monitoring and management of the UC environment.

### Tata Communications Connections for Microsoft Teams provides:

-  A complete managed solution featuring audio, video and video endpoint capabilities
-  Full collaboration experience
-  Fully managed end-to-end service covering all your organisation's communications and collaboration requirements
-  Extended ROI from existing video collaboration deployments using our Microsoft Teams video interop service
-  Single click meeting access from any device - easy to schedule and use
-  Flexi-pay options

## Making life easier for your IT team
